

MFC Verre Monogram Guidebook

The inspiration source for Verre Monogram is an unusual hand-drawn letterset from a vintage embroidery publication which comes off more as a Drop Cap or Initial lettering style than monogram. Although its original intention is uncertain, it has many possibilities. This monogram design from the early 1900's has been updated from a Capitals only to a Caps/Smallcaps set with decorative linking ornamentation. The unique stained glass look of the letterforms allows for a lot of play with manual coloring, and the newly created linking ornaments offer interesting bracelet monogram design options.

Verre Monogram Styles

MFC Verre Monogram is capable of various forms of design, both monogram and not. From one, two, and three letter monograms, to linking bracelet monograms, to Drop Caps and titling options - the creative choice is yours. Below are examples of standard monogram settings...

One letter monogram

Type any Capital letter

Two letter monogram

Type any two Capital letters

Three letter monogram

Type any lowercase + Capital + lowercase

MFC Verre Monogram also has unique monogram linking capabilities, to further enhance and customize your monograms. Using the same formula for typing out monograms above, see the formulas below on how to create these custom frame accented monograms.

Type any number 0-9 between the letters of your monogram to create linked designs. (various linking elements are setup to only link with letters and repeats of themselves, not other linking elements)
