

MFC Royaume Monogram Guidebook

The inspiration source for Royaume Monogram is a decorative letterset (capitals only) from the 1884 "Ames' Guide to Self Instruction in Practical and Artistic Penmanship" by Daniel T. Ames. The letterforms were labelled as "Medieval (Modified)".

Royaume Monogram is capable of several traditional monogram forms, in both solid and outline styles.

If you would like to learn more about traditional monogram formatting and rules, please feel free to visit our website and download our tutorial PDF, "Rules of Traditional Monogramming Explained" at <http://www.monogramfonts.com/MonogramRules.pdf>

Royaume Monogram Styles

Royaume Monogram supports one, two and three letter monograms, and comes with a collection of decorative brace surrounds.

One letter monogram

Type any Capital letter

Two letter monogram

Type any two Capital letters

Three letter monogram

Type any lowercase + Capital + lowercase

Braced monogram

Type # + lowercase + Capital + lowercase + #

The outline version of Royaume Monogram requires the Stylistic Alternates feature, available in most OpenType savvy applications, such as Adobe Illustrator CS (see Fig. 1). You can enable Stylistic Alternates and type out a monogram or text, or you can highlight an already setup solid monogram or text and enable Stylistic Alternates to change it to the outline style.

Two letter monogram

Type any two Capital letters

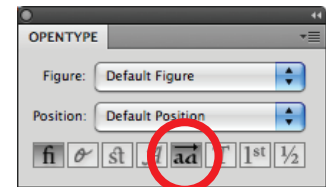

Three letter monogram

Type any lowercase + Capital + lowercase

Figure 1

The Stylistic Alternates option is selected here in the OpenType Palette...

If you want to create a more customized look, you can use a combination of the solid and outline initials for an added emphasis.

Type out any monogram, highlight your letters of choice and enable Stylistic Alternates to create a mix of effects

Below is a character map for the various decorative braces available within Royaume Monogram.
