

## MOSAIC MONOGRAMS v1.0

© 2013 Harold Lohner

Set of 4 fonts that lets you create custom 2- and 3-letter monograms in a mosaic tile design. There's a choice of black tile on white or white tile on black, and a variety of optional frames. Also works for "A&B" style monograms.

### Using the Mosaic Monograms fonts:

1. Install the fonts like any other. Google: "installing fonts in [my operating system]".
2. Launch the application you want to use, create a new document, and select the appropriate font.
3. Type a frame or border if desired using the keystroke in red below. All four fonts have the same options.

A 1	H 8	O %	V = or +
B 2	I 9	p ^	W [ or {
C 3	J 0	Q &	X ] or }
D 4	K !	R *	Y \ or
E 5	L @	S (	Z ; or :
F 6	M #	T )	
G 7	N \$	U - or _	

4. Type the left letter using lowercase.
5. Type the next letter using uppercase. In the 2-letter fonts, you're done.
6. In the 3-letter fonts, locate the right-hand letter's position in the chart at left and type it.
7. For "A&B" style monograms, type ` or ~ instead of the big center letter.
