Three fonts that let you create custom 2- or 3-letter monograms in a graceful cursive style inspired by vertical French scripts. Choose Ribbon, Stripe or Pearl style with a choice of decorative borders and frames in each.
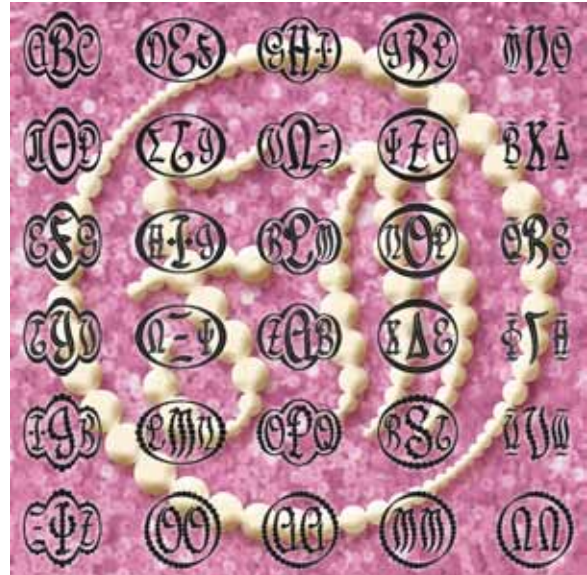

Using the French Monograms fonts:

1. Install the fonts like any other. Do a Google search: "installing fonts in [my operating system]".

2. Launch the application you're using them in and create a new document. For 3-letter monograms, type a frame first if you want one (keystrokes in red at right).
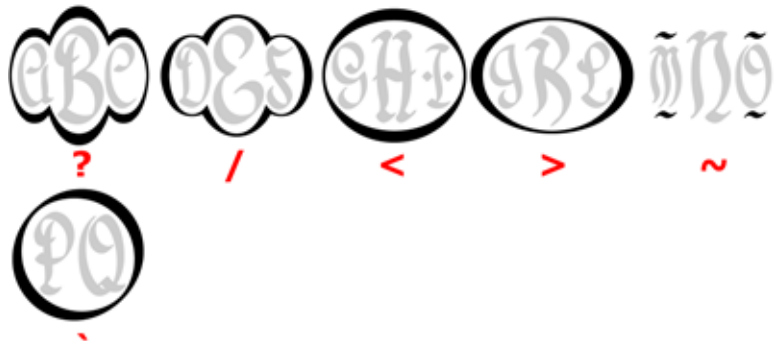

3. Type the left letter using lowercase (a-z)

4. Type the center letter using uppercase (A-Z)

5. The right letter is a bit trickier; use this chart at right. That's it!

6. For 2-letter monograms, type the frame if desired (sorry, only one style), then a capital letter, then a space, then a second capital letter.

A 1	H 8	O %	V = or +
